

**"Stonehenge!"** is a "Tempus Irae" Net Carnage Map, palyable as "Every Man For Himself", and "Kill The Guy With The Ball", or "King Of The Hill".

- Simply toss "Stonehenge!" into your "Tempus Irae" folder, and select "Stonehenge!" under the Environment preferences.
- There's a bi-directional teleporter, and a sorta-secret room.
- Entertaining enough to keep 2 players busy, large groups may find things congested.
- Tested and proven to be Netlink able.
